

DIY Costume Shoe Makeover

DIY COSTUME SHOE MAKEOVER

Simple sleek style has never been easier with Rust-Oleum Universal Metallic Spray Paint. Treat your old shoes with a unique design that lets you shine with every step.

You're never too old to play dress up. Spray paint your shoes with a fun color for a special look at a wedding, prom or Halloween.

ITEMS:

- Rust-Oleum Universal Metallic Spray Paint in Copper Rose
- Drop cloth
- Painter's tape

STEPS:

Step 1: Always work in a well-ventilated area, such as a garage or outdoors, and use a drop cloth to protect from overspray.

Step 2: Remove the shoelaces and apply painter's tape to areas you don't want to paint.

Step 3: Shake can of Universal Metallic spray paint for 1 minute after the ball begins to rattle to mix the paint evenly.

Step 4: Spray 2-3 light coats of paint on each shoe in a steady back-and-forth motion, holding the can approximately 8-12" from the surface with a few minutes between each coat.

Step 5: Let the shoes dry for about 20 minutes before removing the tape and about an hour before use.

Step 6: Enjoy your fresh new kicks that are made ready for any occasion!
