# HOW TO MAKE A MONOGRAM GARLAND WREATH

## PROJECT GUIDE

## STEP 1

Decide what letter you want to make. Choose any letter that you like. Then, with a pencil, draw your letter on the ¼-inch plywood. Try to draw the letter about 17 inches tall and 12 inches wide so that the small lines of the letter are larger than three inches.

## STEP 2

Use your jigsaw to cut out the letter. If you have a letter with a hole in it, like R, B, D, or A, use the three-eighths-inch wood boring bit in the hole first. Then finish cutting out the hole with the jigsaw.

## STEP 3

Use sandpaper to smooth the edges and remove any roughness or splinters.

## STEP 4

Wrap the letter with garland. It's best to start at the bottom of the letter so that the garland can easily wrap around it.

## STEP 5

Now that the letter is wrapped, use scissors to trim loose or extra garland. Tuck the end of the garland under the backside of the letter. Use a hot glue gun to secure the beginning and end of your wrapped garland to ensure it stays in place. Now your monogram garland wreath is ready to hang and enjoy.
